

AS Fine Art Theme for 2017: Movement

To give you some ideas to begin with, research a range of artists who use lines, marks, shapes and colour to suggest a sense of movement, and use this inspiration to record your own movements over the summer break.

You could look at:

Capturing speed: Futurism and vorticism

Expressing movement and dynamism: Kandinsky, Auerbach, Pollock, Hirst

Still movement: Op art and the perception of movement

Kinetic Art: Gabo and Calder

Or use your own ideas and research to begin exploring the theme.

Produce a selection of loose works, varying the time you spend on it, the size and choice of media.

Bring to the first lesson in Sept 2017
