Intent
The overarching concepts for Art and Design at Shaftesbury School are:

- Developing Practical skills
- Developing Ideas and techniques
- Problem solving
- Creativity
- Critical and Contextual Understanding
- Collaboration
- Creativity

Implementation

KS3 – 7 and 8’s
Students will work broadly in Art and Design with the three full terms having a specific outcome based on either Fine Art, Graphics or Textiles. In Year 9 Students will learn and be taught the differences between Fine Art, Graphics and Textiles, hopefully helping them decide the route that best suits their skills and interests in the Arts to choose one of these specific components for GCSE.

KS4
In KS4 students follow the AQA Art and Design (8201) specification and can opt for either Art, Craft and Design, Graphic Communication or Textile Design which are all skills based courses which allow students to develop knowledge and understanding during the course through a variety of learning experiences and approaches, including engagement with sources. This will allow them to develop the skills to explore, create and communicate their own ideas.

Students will demonstrate these skills through the development, refinement, recording, realisation and presentation of their ideas through a portfolio and by responding to an externally set assignment.

KS5
In KS5 students continue using the same skills, techniques and context that they have used throughout their KS3 and KS4 studies. Developing these ideas into more detailed and technical outcomes. The course content is the same as previous Component 1: coursework and Component 2 – externally set exam. Component 1 – is described as the Personal Investigation – a project that the student undertakes with the guidance of the teacher – answering all 4 assessment objectives and culminating in a diverse portfolio and essay that showcases the direction that they wish to proceed with in Further Education.
## Curriculum Overview (Knowledge and skills)

### Impact

**By the end of Key Stage 3** pupils will be able to develop their capability, creativity and knowledge in Art, hopefully going onto study further at GCSE. Students will appreciate and understand the specific differences between Fine Art, Graphics and Textiles. This will be further strengthened by the implementation of specific techniques, skills and vocabulary, by using the teachers that have these different skills in these defined areas. Using practical skills to develop and apply their analytic, problem-solving, design, and thinking skills.

**By the end of Key Stage 4** pupils will be able to develop their capability, creativity and knowledge in Art, Graphics or Textiles, hopefully going onto study further at A – Level. Students will appreciate and understand how to produce a portfolio of work that can answer each assessment objective accordingly. Using practical skills to develop and apply their analytic, problem-solving, design, and thinking skills.

**By the end of Key Stage 5** pupils will be able to develop their capability, creativity and knowledge in Art, Graphics or Textiles, hopefully going onto study further at University or a Foundation course.
Art, craft and design
This title promotes learning across a variety of experiences and through various processes, tools, techniques, materials and resources to generate different kinds of evidence of working and outcomes. Emphasis is on an increased breadth of approach commensurate in demand with the other titles. The context of practice, rather than the breadth of activities and/or range of media employed, determines whether a student’s work can be described as art-based, craft-based and/or design-based.

Knowledge, understanding and skills
Students must explore and create work associated with areas of study from at least two titles listed below.

• Fine art: for example drawing, painting, sculpture, installation, lens-/light-based media, photography and the moving image, printmaking, mixed media and land art.
• Graphic communication: for example communication graphics, design for print, advertising and branding, illustration, package design, typography, interactive design, (including web, app and game), multi-media, motion graphics, signage and exhibition graphics.
• Textile design: for example art textiles, fashion design and illustration, costume design, constructed textiles, printed and dyed textiles, surface pattern, stitched and/or embellished textiles, soft furnishings and/or textiles for interiors, digital textiles and installed textiles.
• Three-dimensional design: for example architectural design, sculpture, ceramics, product design, jewellery and body adornment, interior design, environmental/landscape/garden design, exhibition design, three-dimensional digital design and designs for theatre, film and television.
• Photography: for example portraiture, location photography, studio photography, experimental imagery, installation, documentary photography, photojournalism, moving image: film, video and animation, fashion photography.

Graphic communication
Graphic communication is defined here as the process of designing primarily visual material to convey information, ideas, meaning and emotions in response to a given or self-defined brief.

Areas of study
In Component 1 and Component 2 students are required to work in one or more area(s) of graphic communication, such as those listed below:

• communication graphics
• design for print
• advertising and branding
• illustration
• package design
• typography
• interactive design (including web, app and game)
• multi-media
• motion graphics
• signage
• exhibition graphics.

Textile design
Textile design is defined here as the creation of designs and products for woven, knitted, stitched, printed or decorative textiles that might have a functional or non-functional purpose.
**Areas of study**

In Component 1 and Component 2 students are required to work in one or more area(s) of textile design, such as those listed below:
- art textiles
- fashion design and illustration
- costume design
- constructed textiles
- printed and dyed textiles
- surface pattern
- stitched and/or embellished textiles
- soft furnishings and/or textiles for interiors
- digital textiles
- installed textiles.

**Assessment Objectives**

AO1: Develop ideas through investigations, demonstrating critical understanding of sources.
AO2: Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes.
AO3: Record ideas, observations and insights relevant to intentions as work progresses.
AO4: Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language.
